SUMMARY

Logical and result driven software developer specializing in web development and frontend infrastructure. Dedicated to building and optimizing user-focused web applications for customers and various business objectives. Creative and research-driven when crafting effective web applications and platforms to propel competitive advantage and revenue growth.

WORK EXPERIENCE

Lead Frontend Developer ,
Escape Technology, (Utako, Abuja)   **Sept 2025 - Present**

- Engineered the development and growth of a micro-payment health insurance platform that made affordable healthcare easier to access, supporting hundreds of users and processing significant revenue.
- Assisted in the implementation of a KYC verification process connected to NIMC's virtual NIN system, helping users verify their identity securely and reducing onboarding friction

Senior Frontend Developer ,
Backyard Technologies Limited, (United Kingdom)   **Oct 2025 - Present**

- Led the frontend development of a full-suite Learning Management System, implementing responsive dashboards, course material accessibility flows, progress tracking interfaces, and seamless online/offline class scheduling experiences.
- Built and refined the frontend interface for a UK parking enforcement platform with integrated DVLA/Royal Mail data workflows and GDPR-compliant UX patterns.

Lead Frontend Developer, Hirehuub   **Nov 2024 - Present**

- Led the development of a responsive, high-performance web application, resulting in successful MVP validation during the first-phase evaluation.
- Optimized API integrations to deliver a seamless, user-friendly experience while reducing latency by 15%.
- Pioneered cost-effective solutions through efficient state management and modular design, cutting operational overhead by 20%.
- Mentored junior developers in modern React/Next.js best practices, improving team productivity and code quality.

Frontend Developer , Gfams Accounting Cooperative   **Jan 2024 - Dec 2024**

- Implemented frontend project structure and development guidlines for adequate project execution.
- Implemented Innovative features and reusable components to the company's web application, resulting in a more structured and user-friendly UI.

- Implemented cost-effective solutions, resulting in a 20% reduction in project expenses.
- Participate in weekly stand-ups and sprint planning, ensuring timely task deliveries.

Frontend Developer , Black Shakara   **Mar 2022 - Dec 2023**

- Coordinated project tasks, ensuring adherence to engineering standards and regulations.
- Conducted code analyses, identifying and rectifying discrepancies in project designs.
- Improved user experience and performance modification to an existing payroll package then worked with backend engineer to improve seamless data transfer between endpoints
- Assist in code refactoring and optimization, making the platform more user-friendly and archived a 30% improvement in load time

Frontend Developer, Ingressive For Good (I4G)   **Sep 2022 - Nov 2022**

- Volunteered on a cross-functional team to develop and implement a P2P e-commerce web application using React and Redux.
- Executed responsive design principles using Tailwind and CSS, resulting in a seamless user experience across devices; decreased bounce rate by 25% and increased mobile conversions by 40%.
- Conducted cross-browser compatibility testing to ensure consistent performance across different browsers and provided support to the 10+ developers on my team and enhancing project success rate and delivery timeline.

Developer Intern, Edo Innovation Hub   **Feb 2020 - Jan 2021**

- I took classes on AWS Cloud Computing to be a certified AWS cloud practitioner and equip myself with the knowledge of Cloud Computing.
- Handled supervision and technical issues relating to software installation and systems updates in the hub during computer appreciation programs.
- Assisted in the development and implementation of new features on the web applications using HTML, CSS, and Javascript.

EDUCATION

Bachelor of Science in Computer Science   **2017 - 2021**
University of Benin

- Relevant coursework in System Design & Methodology and Information Technology.
- Thesis on "Innovations in Mobile voting for ease of electoral practices".
- IT report on "Cloud Computing and methodology".

ADDITIONAL INFORMATION

- **Technical Skills:** React, Next JS, Tailwind CSS, TypeScript, JavaScript, Bootstrap, Rest API, Graph ql, HTML, CSS, GitHub, GitLab
- **Languages:** English
- **Certifications:** Certified AWS Cloud Practitioner, Ultimate JavaScript, Web Developer Bootcamp, Microsoft C# Certificate
- **Awards/Activities:** BSc. Computer Science
