BSC COMPUTER SCIENCE

University of Benin

Benin city, Edo, Nigeria

2017 - 2022

> Conducted tutorials for colleagues and junior colleagues

> Member of Google Developer Student Club(GDSC) Benin

PROFILE

Logical and result driven Web developer dedicated to building and optimizing user-focused web applications for customers and various business objectives. Creative and research-driven when crafting effective web applications and platforms to propel competitive advantage and revenue growth.

EXPERIENCE

FRONTEND DEVELOPER

Black Shakara   (Full-Time)

March 2022 - Present

- Implemented innovative features and enhancements to the company's web platform, resulting in a more structured and user-friendly UI
- Improved user experience and performance modification to an existing payroll package; then worked with backend engineer to improve seamless data transfer between endpoints
- Assist in code refactoring and optimization, making the platform more user-friendly and archived a 30% improvement in load time
- Participate in daily stand-ups and sprint planning, ensuring timely task deliveries

FRONTEND DEVELOPER

Ingressive For Good (I4G)   (Part-Time)

September 2022- November 2022

- Volunteered on a cross-functional team to develop and implement a P2P e-commerce web application using React and Redux
- Executed responsive design principles using Tailwind and CSS, resulting in a seamless user experience across devices; decreased bounce rate by 25% and increased mobile conversions by 40%
- Conducted cross-browser compatibility testing to ensure consistent performance across different browsers and provided support to the 10+ developers on my team

> Joined college basketball team and played inter-faculty competitions

SECONDARY SCHOOL CERTIFICATE

Stadium High School
Hogan Bassey Cres, Lagos, Nigeria

2009 - 2015

> Senior member of Jet(science) Club and assistant head of Red Cross

> Lab prefect for Chemistry laboratory

> Football Silver Medalist

> 100 & 400 meters athletics finalist

> Cowbellpedia Maths competition state finalist

LANGUAGES

ENGLISH

📢 Native

- Integrated front-end code with backend APIs to enable real-time data updates and enhance user interactivity, resulting in seamless data transfer from the front end to the backend.

DEVELOPER INTERN

Edo Innovation Hub   (Intern)

59 C, ICE Road, Off Wire Rd, Benin City

April 2021 - August 2021

- Worked with Senior Developers to develop and improve upon my programming skills while building a mockup of the EdoJobs client-side pages
- I took classes on the AWS cloud practitioner program to equip myself with the knowledge of Cloud Computing
- Handled supervision and technical issues relating to software installation and systems updates in the hub during computer appreciation programs
- Assisted in the development and implementation of new features on the web applications using HTML, CSS, and Javascript

PROJECTS

- Developed and maintained a fast-food delivery web application
- Integrated front-end code with backend APIs for an E-Voting web application to enable real-time data updates and enhance user interactivity for my school project
- Pioneered responsive design principles while building a coffee web application using HTML, CSS, and JS
- Built a mockup page using data from spaceX API, showing flight time, rockets, and astronauts' data
- Built a mockup landing page for a bank app and optimized website performance, resulting in a 25% decrease in page load time
- Volunteered in designing and implementation of an NFT card UI and worked on improving the UI of Diginosys project
- Designed and developed a QRcode generator using Javascript that generates a different QRcode on every input by the user
